

PLATE XXXA.

Fig. 1. Superior bristle, from the anterior region of <i>Sabella bipunctata</i> ,	×	350.
Fig. 2. An inferior bristle, from the same group,	×	350.
Fig. 3. Anterior hook of the foregoing,	×	390.
Fig. 4. Dorsal bristle (with shorter tip than usual), from the anterior region of <i>Sabella fusca</i> ,	×	126.
Fig. 5. Tip of inferior bristle, from the same foot,	×	126.
Fig. 6. Anterior hook of the species,	×	390.
Fig. 7. Upper bristle, from the posterior region of <i>Laonome haeckelii</i> ,	×	350.
Fig. 8. Tip of inferior bristle, from the same foot,	×	350.
Fig. 9. Hook of the same species,	×	390.
Fig. 10. Tip of an anterior bristle, from the upper series in <i>Branchiomma vesiculosum</i> ,	×	210.
Fig. 11. Tip of another, from the inferior group,	×	210.
Fig. 12. Anterior hook of the foregoing form,	×	390.
Fig. 13. Tip of an upper bristle, from the anterior region of <i>Dasychone bairdi</i> ,	×	350.
Fig. 14. Tip of an inferior bristle, from the same part,	×	350.
Fig. 15. Anterior hook of the foregoing species,	×	390.
Fig. 16. Tip of an upper anterior dorsal bristle of <i>Dasychone picta</i> ,	×	390.
Fig. 17. Tip of an inferior bristle, from the same foot, slightly turned round so as to show both wings,	×	390.
Fig. 18. Anterior hook of the foregoing species,	×	390.
Fig. 19. Tip of anterior bristle (dorsal group) of <i>Dasychone orientalis</i> ,	×	350.
Fig. 20. Tip of one, from the inferior group,	×	350.
Fig. 21. Anterior hook of the preceding form,	×	390.
Fig. 22. Tip of anterior bristle (upper) of <i>Dasychone japonica</i> ,	×	210.
Fig. 23. Tip of bristle, from the inferior group of the same part,	×	210.
Fig. 24. Anterior hook of the foregoing,	×	390.
Fig. 25. One of the anterior bristles (with shorter tip) of <i>Placostegus ornatus</i> ,	×	350.
Fig. 26. Posterior bristle, from the same,	×	350.
Fig. 27. Anterior hook of the foregoing,	×	700.
Fig. 28. Anterior hook of <i>Placostegus benthalianus</i> ,	×	700.
Fig. 29. Anterior bristle (with "bite" at tip) of <i>Placostegus mörchii</i> ,	×	350.
Fig. 30. Anterior hook of the same,	×	700.
Fig. 31. Tip of an anterior bristle of <i>Vermilia</i> sp. (Station 302),	×	350.
Fig. 32. Anterior hook of the foregoing, the posterior margin incomplete,	×	700.
