

LATIN SCIENTIFIC TERM.	ENGLISH TERM.	GERMAN TERM.
<i>n</i> <i>Nectophoræ</i> ( <i>nectocalyces</i> ).	<i>Swimming-bells.</i>	<i>Schwimmglocken.</i>
<i>na</i> Apex <i>nectophoræ</i> .	Top of the swimming-bell.	Schwimmglocken-Scheitel.
<i>nb</i> Basis pedunculi (insertio).	Basal insertion of the bell-pedicle.	Insertions-Basis.
<i>nc</i> Canalis circularis <i>nectophoræ</i> .	Marginal ring-canal.	Ring-canal (der Glocken-Mündung).
<i>nd</i> Ala dorsalis <i>nectophoræ</i> .	Dorsal wing of the bell.	Rückenflügel der Schwimmglocke.
<i>ne</i> Canales accessorii pedunculi.	Accessory pedicular canals.	Stiel canal-Aeste.
<i>nf</i> Fissura infundibuli.	Hydroæcial cleft.	Gehäuse-Spalte.
<i>ng</i> Margo basalis <i>nectophoræ</i> .	Edge of the bell-base.	Basal-Kante.
<i>nh</i> Cavitas <i>nectophoræ</i> .	Bell cavity.	Schwimmglocken-Höhle.
<i>ni</i> Infundibulum (hydroæcium).	Hydroæcial cavity.	Gehäuse des Stammes.
<i>nk</i> Margo coryphalis (crista sagittalis).	Sagittal crest of the nectocalyx.	Scheitel-Kante der Schwimmglocke.
<i>nl</i> Ala sinistra <i>nectophoræ</i> .	Left wing of the swimming-bell.	Linker Flügel der Schwimmglocke.
<i>nm</i> Musculi pedunculi.	Muscles of the pedicle.	Stiel muskel.
<i>nn</i> <i>Nectophora specialis</i> ( <i>Calyconectæ</i> ).	Special <i>nectophoræ</i> .	Special-Schwimmglocke.
<i>no</i> Ostium <i>nectophoræ</i> .	Mouth of the nectosac.	Schwimmböhlen-Mündung.
<i>np</i> Pedunculus <i>nectophoræ</i> .	Pedicle of the <i>nectophoræ</i> .	Schwimmglocken-Stiel.
<i>nq</i> Condylus articularis <i>nectophoræ</i> ( <i>Abylidæ</i> ).	Articular apophysis of the nectocalyx.	Gelenk-Kopf der Schwimmglocke.
<i>nr</i> Canales radiales <i>nectophoræ</i> .	Radial canals of the bell.	Radial-Canäle der Schwimmglocke.
<i>ns</i> Canalis peduncularis.	Pedicular canal.	Stiel-Canal.
<i>nt</i> Septum frontale <i>nectophoræ</i> .	Septum between nectosac and hydroæcium.	Frontal-Septum der Schwimmglocke.
<i>nu</i> Gelatina <i>nectophoræ</i> .	Jelly of the swimming-bell.	Schirm-Gallerte.
<i>nv</i> Ala ventralis <i>nectophoræ</i> .	Ventral wing of the bell.	Bauchflügel der Schwimmglocke.
<i>nw</i> Nectosaccus.	Swimming-sac.	Schwimmsack.
<i>nx</i> Ala dextra <i>nectophoræ</i> .	Right wing of the swimming-bell.	Rechter Flügel der Schwimmglocke.
<i>nz</i> Ala dentata <i>nectophoræ</i> .	Toothed wing of the bell.	Zahnflügel der Schwimmglocke.
<i>o</i> <i>Ovula</i> .	<i>Eggs.</i>	<i>Eier.</i>
<i>o<sup>1</sup></i> Macula germinativa.	Nucleolus of the egg.	Keimfleck.
<i>o<sup>2</sup></i> Vesicula germinativa.	Nucleus of the egg.	Keimbläschen.
<i>o<sup>3</sup></i> Lecythus germinativus.	Protoplasm of the egg.	Keimdotter.
<i>p</i> <i>Pneumatophora</i> .	<i>Swimming-Bladder.</i>	<i>Schwimmblase.</i>
<i>pa</i> Antrum pneumaticum.	Air-cavity.	Lufthöhle.
<i>pb</i> Basis (pedunculus) <i>pneumatophoræ</i> .	Basal pedicle of the float.	Schwimmblasen-Stiel.
<i>pc</i> Cavitas pericystalis.	Pericystic cavity of the float.	Pericyst-Höhle der Schwimmblase.
<i>pd</i> <i>Pneumadenia</i> (glandula <i>pneumatica</i> ).	Air-secreting gland.	Luftdrüse.
<i>pe</i> Stigmata (pori exumbrales).	Pneumatic pores ( <i>Disconnectæ</i> ).	Luftporen der Exumbrella.
<i>pf</i> <i>Pneumatocysta</i> (lagena <i>pneumatica</i> ).	Air-flask.	Luftflasche.
<i>pg</i> <i>Pneumothyræ</i> (pori communicantes annulorum).	Apertures of the ring-chambers ( <i>Disconnectæ</i> ).	Communications-Thüren der Luft-Ring-Kammern.
<i>ph</i> Camera centralis <i>pneumatocystæ</i> .	Central chamber of the float.	Central kammer der Luftflasche.
